Application Tips

- Do not apply with fungicides. Fungicides should only be applied if needed.
- **Alternate nutrient combinations are available on request**
- Apply in a minimum of 30 gallons of water per acre. More water per acre will only improve product performance.
- For maximum performance, contact 3 Tier or your authorized distributor for high performance injection equipment and programs.

The above mentioned program is simply a guideline. 3 Tier prefers to review your current programs to ensure that the same quality and value is achieved by every client.
