### Application Tips

- Do not apply with fungicides. Fungicides should be applied on an alternate week program.
- For advanced fairy ring, a Huma-Balance XL w/Bio-Cat Booster drench at 1/2 gallon per 50 gallons of water may be needed.
- Apply in a minimum of 40 to 80 gallons of water per acre. More water per acre will only improve product performance.
- Supplemental N may be needed every 5 to 6 weeks.
